### **Local Home Safety & Accessibility Remodeling Company Reveals Custom Home for Wheelchair Dependent Client**

**(Scottsdale, AZ)** Scottsdale based fall prevention home safety company shares “big reveal” for wheelchair dependent client, to see her customized, fully accessible home for the first time.

Husband and wife owned Measurabilities Home Safety, Fall Prevention Home Safety & Accessibility Specialists, in business since 2013, work with clients/patients valley wide keeping them safe and independent at home.

When “Ilene”, who is wheelchair dependent, came to them needing her entire home “accessible”, the Measurabilities crew in partnership with R4 Residential, went in and completely gutted and customized the entire home. From automatic doors, ceiling lift, ramps, barrier free bathroom, drop down cabinets, appliances and more, Ilene is now fully independent in her home.

A tearful Ilene, said she no longer has to open cabinets in the kitchen to scoot forward in order to reach the counter or to use appliances.

The Measurabilities team in partnership with R4 Residential worked on the project for more than six months, implementing clinically guided accessibility solutions, providing Ilene with the big reveal of her home at the end of July 2020. Touching, tearful and emotion filled, she can now live independently with her son at home.

Measurabilities works valley wide with hospital, rehabs, fire, physicians and a variety of clinical agencies in the community. They provide free home safety assessments performed by physical & occupational therapists who make clinically guided recommendations for safety, fall prevention and accessibility solutions. The company provides and installs all materials from safety grab bars to full accessibility remodels.

Family owned and passionate about home safety, the best part of what they do is making positive changes in people’s lives.
