

MEASURAbilities Home Safety's services include the installation of safety bars and barrier-free showers in clients' homes to help reduce the risk of fall. (Photo courtesy MEASURAbilities Home Safety)

a wheelchair-dependent client. Working in partnership with R4 Residential, they spent more than six months transforming the entire home to make it more accessible. Updates included the addition of automatic doors, a ceiling lift, ramps, a barrier-free bathroom, drop-down cabinets and appliances.

"Now she can enjoy the independence of being able to do things like open a cabinet in her kitchen without any trouble," Deena says. "It was the most touching and moving experience."

Because its employees are considered essential workers, MEASURAbilities Home Safety has continued to provide its services throughout COVID-19. It has been

to make sure that their homes are as safe as possible. We want to keep our geriatric population from returning to the hospital."

The company also prides itself on being compassionate and friendly, in addition to having a quick response time. It always follows up with clients right after the initial assessment to let them know the outcome of the visit and make sure they have access to all the information they need.

MEASURAbilities Home Safety also provides community outreach and education regarding the company's unique functional workplace testing and fall prevention home modification services. The educational events are free and open to the community.

"We're passionate about what we do, and we get to work with so many wonderful people," Deena says. "Especially during these current times, with so many difficult things going on, it's such a good feeling to help people through challenging situations. They go from being scared at first to comfortable once they know they're safe, which is really heartwarming. Every time is like the first time, and we never take it for granted." ■

a lot of water as well."

For clients with more extensive needs, MEASURAbilities Home Safety also does complete home remodels and works with a team of contractors and designers. Recently, the team gutted and customized a home for

following all of the recommended CDC guidelines to ensure the ongoing safety of its clients and staff.

"Home safety doesn't rest because of a pandemic," Deena says. "People are spending more time at home than ever, so we need
